YUGAGRO 2011

18th International Specialised Trade Show for Agriculture

The Market

Among the Russian regions, Krasnodar Kray plays a leading role in the countries' economy. The recent quick development also profits from the fact that Krasnodar Kray has successfully participated in the tender for the Olympic Games 2014. The positive results already are investments for the region in infrastructure for tourists on the Black Sea Coast and general investments in economic development.

In the important field of agriculture and food processing industries, Krasnodar region offers a great potential for the development of agricultural machinery manufacturing, for the production of high-quality products from the region and for the processing of rice, grain, fruit, vegetable, dairy products, meat, sunflowers, wine etc.

The Exhibition

With 621 exhibiting companies from 31 countries the international specialised exhibition on agriculture, YUGAGRO, marks a successful agrarian year end 2010. From November 23–26, Krasnodar again was meeting point for companies of the agriculture and animal husbandry sector. Germany was officially represented by a German Pavilion subsidized by the Federal Ministry of Economics and Technology (BMWi). 37 exhibitors presented their products and technologies to 13,370 visitors under the brand "Made in Germany"

With a rise of 11 % in exhibitors and 10 % in visitors, YUGAGRO once again underlines its significance as important agrarian event and biggest show of agricultural technologies. Also, a conference was held again featuring current topics and problems in the agriculture as well as the Russian Ministers' of Agriculture summit meeting.

Main Topics YUGAGRO

Agricultural machinery and farming equipment • Crop breeding and cultivation, crop protection and fertilisers • Horticulture • Animal breeding, animal husbandry, feed stuffs • Milling and elevator equipment, silo storage and transport technology • Dairy industry • Veterinary products • Primary processing, grain handling • Processing of meat, milk, fruit, vegetable and fish • Packaging, cooling and storage technology • Services for the agricultural sector (financing, leasing, software for agriculture, etc.)
